Talkook Stud was established in 1968 by Robert 'Bob' Anderson for the purpose of meeting the high demand for 1st cross ewe clients as well as the production & stocking purposes for Bob's family, trading as Mt Pleasant Pastoral Company in the Crookwell area. In the initial years the Stud was based on Yarra bloodlines. Over the last 52 years, Bob has carefully selected Rams into the stud for the purpose of both wool and meat quality. These sires have been selected from studs such as The Oaks, Raywil, & Chain O Ponds, with the introduction of sires more recently in the last 15 years from the Cadell and Retallack studs.

Talkook Stud has been & remains dedicated to its clients in producing high quality carcass traits within its sires as well as quality wool.

2.3 kg

leading to a **\$23 per ewe ROI (6:1 return)***

Multimin Injection for Sheep provides a **low volume formulation** that is rapidly absorbed, readily utilised and provides sustained activity during high demand periods (e.g. weaning, joining, lambing, transport and induction to feedlot)^{1,2,3}.

*Increasing a 4% marked lambs per ewe at 12 weeks of age can result in a 6% increase in lambing rate. This is a guideline and may vary depending on farm management, climate, nutrition and other factors.

TALKOOK USE AND RECOMMEND

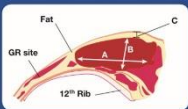

The only performance recording system delivering processed data on eye muscle width, depth and area measurements.

STOCKSCAN aim to provide breeders with measurements that are directly beneficial to the Prime Lamb Industry.

Provides definitive results to achieve:

- MORE MEAT
- HIGHER YIELD CARCASSES

Could you be missing out?

The diagram shows a cross-section of a lamb's eye muscle. Three measurements are indicated: 'A' for eye muscle width, 'B' for eye muscle depth, and 'C' for fat measurement. Other labels include 'Fat', 'GR site', and '12th Rib'.

StockScan is the only performance recording system delivering **processed data** on eye-muscle width, depth and area measurements, providing definitive results to achieve:

- MORE MEAT
- HIGHER YIELD CARCASSES

An on-farm tool used by Stud & Commercial Breeders. Run by dedicated breeders who understand the Prime Lamb Industry.
